		Keller, WA 99140				
		(509) 634-4509				
Total						\$30,000.00

Justification (see attached instructions):

The San Poil River has eroded the SR 21 roadway and the abutment of the W. Fork San Poil River Bridge (BR 21/321). Work is needed to restore the abutment fill material and repair the damaged roadbed and pavement.

Since SR 21 is closed between MP 145.5 and 145.7 this is the closest vendor available to supply this material. State forces and equipment will be used to transport this material.
